**Save \$30-\$50**

Motion Analysis Technology by Taylormade (MAT-T) is an extraordinary tool that elevates swing analysis and club fitting to a new level. Previously available only to PGA Tour professional, the MAT-T system gathers vital swing information and statistics using multiple high-speed cameras. Using reflective markers placed on strategic parts of the body, the system creates a three-dimension image of the body and a remarkably sophisticated computer-animated image of the swing, viewable from any angle. Quail Lodge Golf Club is proud to be the only club in Northern California to offer this exciting system.

**MATT Instruction: 1 HR : \$170 | 2HR \$250**

\*Purchase individually or combine packages. Packages subject to availability.
